Certifications

Freelancing (**DigiSkills**)

Graphic Design (**DigiSkills**)

JavaScript (**Udemy**)

Objectives

Motivated and self-driven Computer Science undergraduate with hands-on experience in WordPress development using different plugins and theme builders to create responsive websites based on customer needs. Passionate about web development, with self-learned skills in HTML and CSS, and practical experience through personal projects like website clones. Looking for an internship to apply my technical knowledge in a real-world environment, contribute to dynamic teams, and continue growing as a developer.

Skill Highlights

- WordPress
- Coding
- Problem solving
- Web Development
- E-Commerce

Projects

WordPress (Intermediate level Experience):

- Created several responsive WordPress websites based on client needs and project goals.
- Used plugins like **Elementor**, **WP Forms**, **Yoast SEO**, **WooCommerce**, and **Site Kit by Google** to add useful features, improve SEO, and track performance.
- Customized themes and templates such as **Astra** and **BlogHash** to give each site a unique and professional look.
- Learned to handle everything from layout design to plugin setup, gaining confidence in building and managing websites independently.

Front-End Development (Self-Learned | 6 Months Experience):

- Built responsive front-end clones of popular websites such as **Netflix** and **Ultra Edition** to sharpen design and layout skills.
- Focused on creating clean and organized layouts, using **HTML** and **CSS** for styling and structure.
- Paid close attention to responsive design, ensuring websites looked and worked well on both desktop and mobile devices.
- Practiced pixel-perfect UI replication to closely match real-world websites, improving attention to detail and consistency in design.

JavaScript Learning (In Progress):

- Learning JavaScript through **Udemy** to build a strong foundation in web development.
- Practicing DOM manipulation, functions, and event handling through mini projects.
- Part of my goal to grow as a full-stack developer.

Education

Bachelor of Science: **Computer Science** 2023 – Present
University of Education, Lahore (Faisalabad Campus)

Intermediate: **Intermediate with Computer Science** – 2019
Government Higher Secondary School, Ajnianwala
